

KAMAL MEDTECH CORPORATE FACTSHEET

The World's Best Medical Devices; Made in India

Introduction

A wholly owned subsidiary of Kamal Encon Industries Limited{ www.kamalencon.com} Kamal Medtech {www.kamalmedtech.com} are pioneers, specialists and experts in design, development, manufacturing and supply of internationally benchmarked precision driven devices for dental implantology and interventional cardiology. World-class quality, exacting R&D standards, agility and adaptability define Kamal Medtech products.

Designed and manufactured to exacting international standards, constantly evolving, our medical devices cater to every possible aspect of practitioner and patient needs. Each device is designed around the end user's requirement, comfort, and well-being. Seamless product performance, endurance and safety are hallmarks.

Highlights

- CE 1434 (Europe) ; ISO 13485:2016 certified
- Best bio-compatibility metrics in industry.
- 50,000 sq ft state-of-the art manufacturing facility with world-class R&D
- Only Indian company with expertise in design, manufacture of Zygomatic implants
- Obsessive quality, robust supply chains, exceptional partnerships, customer delight
- Clinical endorsements

Gothenburg University (Sweden)

St. Petersburg University (Russia)

Malacca Manipal University (Malaysia)

Maulana Azad Institute of Dental Sciences (New Delhi)

- Alliances with post-graduate institutions--training, development, knowledge-sharing.
- Co-created the flagship dental implant with the Council of Scientific & Industrial Research (CSIR), Government of India and the Indian Institute of Technology (IIT), Delhi.
- Growing global market-base: Sri Lanka, Egypt, Malaysia, UAE, Indonesia, Thailand, Saudi Arabia, CIS countries.

Products & Solutions – Dental Implantology

- **i-Fix:** defined by exceptional abutment, versatile and stronger Titanium with a range of 3.5 mm to 5:0 mm, i-Fix fits all diameters. The internal conical connections give rigid connections and a stable biological seal. The tapered design and optimized thread allow gradual bone condensation, while the coronal bevel grants better soft

tissue integration. A single prosthetic platform across all diameters minimizes inventory. This holds equally for healing abutment. For the dentist, this translates to smaller, more controlled, more versatile inventories.

- **i-Fix Pro:** a bespoke version of the i-Fix, the i-Fix Pro is suited for cases which require immediate fixing of implants. It is ideal due to its sharper contours and cutting grid offer greater stability and optimal setting into the bone.
- **S-Fix:** the s-Fix's thread design is a Kamal Medtech copyright. An expanding tapered body gives s-Fix high stability even in compromised bone situations

Products & Solutions – Interventional Cardiology

- **Polaris PTCA Non Compliant Balloon Dilation Catheter** designed in US, manufactured exclusively in India by Kamal Medtech is an unrivalled device for coronary intervention for PTCA interventions. It offers unparalleled crossability, pushability, trackability. The proprietary hypotube ensures smooth navigation at the target lesion.
- **Everoshine:** the **Everoshine Everolimus Eluting Coronary Stent System** incorporates a unique design. Proven efficiency of the Everolimus drug and bio-resorbable polymers led to the creation of Everoshine.
- **Stentoflex:** the **Stentoflex Sirolimus Eluting Coronary Stent System** has an innovative design with a demonstrated blend of anti-proliferative drug Sirolimus. It has bio-degradable polymers which lead to excellent immediate and long-term performance. The drug release kinetics of Stentoflex are widely acknowledged.

Established: 2017

Employees: 200

Kamal Medtech

Corporate Office: Level 7, Hansalaya, Barakhamba Road, New Delhi 110 001

Manufacturing: Plot 917, Sector 68, IMT, Faridabad 121 001, New Delhi-NCR, Haryana.
